

THE BOYS ARE BACK IN TOWN

(At the De La Salle School)

A few weeks ago, nearly seventy boys (along with many adults) navigated their way through larger than pothole sized craters and walked through the doors of the Our Holy Redeemer School building to begin another school year at the De La Salle School. With help from Executive Director Mr. William Gault, Brother Timothy, returning Staff-members and volunteers, and their new Principal Mrs. Becker, these aspiring Christian gentlemen have wasted no time “in the Holy Presence of God” getting to know Christ Jesus!

Over the past few months, parishioners of Our Holy Redeemer have spent nearly \$50,000 replacing the roof of the school building to make sure that a safe environment could be provided for the boys and all of the building’s users. Because of that Spirit of Generosity, a safer and more secure environment can now in fact be found in the school building space used by Our Holy Redeemer Human Services/Parish Outreach where Winter, Spring, Summer, and Autumn the needs of Freeport’s poor are satisfied with help from Sister Dorothy, Parish Staff, and volunteers. A safe and secure environment can also be found on the first floor of the school building used by the De La Salle School where the aspiring Christian gentlemen mentioned earlier, can be found engaged in learning!

Before we can move to the portion of the roof that (precariously) sits above the boys in the second floor classrooms, we discovered a **MAJOR \$95,000.00 problem** in the wall that supports that roof. Would you **PLEASE, PLEASE, PLEASE consider making a contribution** to help fix that problem? If so, please know that you will not only be helping *the boys who are back in town* today, but also those who will follow them tomorrow.
